

LAWYERS FOR PARENTS

Dear Parent or Caregiver,

We do not work for ACS. We are lawyers, parent advocates, and social workers, who represent parents in family court. We are here to represent you in the case that ACS is bringing against you in the Family Court. During the Coronavirus outbreak, the court is operating by telephone and you must call to get a lawyer assigned to you. It is important that you call a legal provider in the borough where you live so we can inform you of your rights and explain how the process works. **Please do not discuss your case with anyone until you call us and speak to a lawyer. If you want more information about who we are, you can look at our websites too.**
